

SelectHealth—Utah’s Top-Ranked Plan According to *U.S. News*

U.S. News & World Report's 2008 "America's Best Health Plans"

report and the National Committee for Quality Assurance* (NCQA) have again ranked SelectHealth above all other Utah commercial health plans for the third consecutive year.

SelectHealth was rated 125 when compared to 287 health insurance companies throughout the country. The next highest Utah health plan was listed at 203 out of the 239 plans that submitted data.

“Congratulations and thank you to our employees who make SelectHealth a great organization,” said Sid Paulson, SelectHealth

president and CEO. “The scores reflect our culture of Superior Service, which makes a difference to our customers.”

Health plans were evaluated on clinical quality, member satisfaction, and NCQA Accreditation scores. The ratings are featured in the November 17 to 24 issue of *U.S. News* and are available at www.usnews.com/healthplans.

*NCQA is an independent, not-for-profit organization dedicated to measuring the quality of America’s healthcare.
